CMES International Contacts

CMES has a network of contacts, which can be helpful for student’s setting up their 3rd semester internship or research projects. Contacts can be said to be; official contacts; unofficial contacts and networks. Due to the situation in Syria our contacts there will not be listed this year. The official contacts have written agreements between Lund University/CMES and the contact partners. The unofficial contacts are informal agreements between CMES and various organisations. Networks are personal contacts among staff and previous students. Not all staff and student networks will be listed here but students are encouraged to explore contacts and options in discussions with teachers and staff.

**Official contacts**
